KIP 7000 SERIES

KIP 7000

KIP 7000 SERIES SYSTEMS ARE EXCEPTIONALLY POWERFUL PRINT, COPY AND SCAN SOLUTIONS THAT PROVIDE HIGH DEMAND USERS WITH THE ULTIMATE IN IMAGING TECHNOLOGY AND PRODUCTION SPEED.

THE KIP 7000 IS AVAILABLE IN THREE MAIN CONFIGURATIONS: KIP 7000 PRINT SYSTEM, KIP 7000 PRINT, COPY & SCAN SYSTEM AND KIP 7200 PRODUCTION SYSTEM.

KIP 7000 Print Systems

The KIP 7000 network print system increases print production possibilities by delivering high volume output with exceptionally reliable performance. The system efficiently produces documents sent via application drivers, network PCs or over the internet. The KIP 7000 meets the toughest printing demands of virtually any digital imaging environment and may be easily upgraded to incorporate monochrome and color copying and scanning features.

KIP 7000 Print Systems Features: ■ Prints 13 'D', A1 size sheets per minute at 600 x 600 dpi resolution ■ 100% toner efficient operation from 4 media rolls ■ Integrated touch screen display provides advanced system management ■ KIP software and application drivers included with each system

The modular concept of KIP 7000 systems enables multiple configuration possibilities to suit any wide format document workflow environment.

KIP 7000 Print, Copy & Scan Systems

The KIP 7000 system easily handles high demand monochrome and color scanning applications, providing the capability to scan any original into a variety of digital file formats for use at network PCs, or create color copies directly to inkjet printers. Monochrome documents containing lines, text, gray-scales and graphic images are quickly and accurately printed, copied or scanned.

KIP 7000 Print, Copy & Scan Systems Features:

■ Single, space saving system footprint with no need for additional PCs ■ Create color copies directly to inkjet printers ■ Scan documents into a wide range of monochrome and color file formats ■ Image presets with real time copy and scan previews provide maximum quality control
KIP 7200 Production System

The KIP 7200 system employs highly advanced imaging technologies to deliver outstanding clarity & maximum production speed. A Uniquely durable design and quality construction ensure reliable operation and consistent quality in high production imaging environments. Featuring a full suite of production printing, copying and scanning software, the KIP 7200 system expertly performs all monochrome & color imaging applications. Thanks to a robust document imaging system, complex graphics and photos are reproduced as accurately and efficiently as simple line drawings. The KIP 7200 system may be configured as a compact integrated system, or split into separate printing and scanning stations for maximum productivity!

KIP 7200 Production System Features: ■ True 600 x 600 dpi optical resolution ■ 24-Bit RGB True Color image capture ■ Three independent imaging cameras ■ KIP Real Time Thresholding technology ■ Self-calibrating maintenance systems ■ 24 Month optical system warranty

KIP 7000 Imaging Workflow

1. Document is inserted into scanner to begin the imaging process
2. Monochrome copies are produced by KIP 7000 System
3. Monochrome or color documents are scanned to network locations or FTP sites
4. Direct color copies are produced by integrated inkjet printer

KIP 7000 SERIES IPS SOFTWARE SUITE

KIP IPS SOFTWARE IS POWER AT YOUR FINGERTIPS!

The KIP Image Processing Software Suite is comprised of printing and scanning applications available at the KIP 7000 operator panel, on network PC workstations and over the internet for a powerful and easy-to-use work environment.

KIP Image Processing Software Suite

The KIP Image Processing System is a combination of processing power and flexible software applications designed for maximum productivity and ease-of-use. Applications are available on PC workstations, over the internet and at the KIP 7000 touch screen operator panel, providing a uniform user interface across the entire KIP digital product range. All applications have been designed to provide exceptional versatility, fast file processing and efficient use of network resources to maintain high productivity.

Integrated and Powerful Wide Format Imaging Software

KIP PrintNET

KIP PrintNET is a true web-based print utility that benefits users with versatile viewing, printing, job queue management and system administration features without the need to install any software applications on network PCs. Users may select and send single or multiple files to KIP digital systems via a local network or the internet. In addition, KIP PrintNET generates customizable E-mail reports detailing all system usage on demand or at preset intervals. These reports contain data compatible with spreadsheet applications for easy customization and analysis.

KIP PrintNET Key Features: ■ The integrated PrintNET viewer displays accurate graphics, photos and fine lines ■ Create print jobs from Windows, Apple, Novell and Unix/Linux based web browsers ■ User name and password authentication system designed for maximum network security ■ Apply printing preferences on a per-file basis or to a complete print job ■ Accurate individual, departmental and project specific accounting information ■ Operates in mixed environments of client PC operating systems

KIP Request

KIP Request network printing software is an easy-to-use application designed to provide network users with a fast and accurate means of producing high quality prints from all types of file formats. Every aspect of KIP Request is centered on efficient workflow, providing complete command of a host of powerful printing and print management tools. Users may preview print jobs, make image adjustments, set document folding parameters, enter accounting data, manage the print queue and send files to various KIP printers on the network via a single interface.

Microsoft Certified KIP Windows® Driver

The KIP Windows driver is WHQL certified for 64 and 32 bit Windows Vista, XP and Server 2003, meaning the KIP Windows driver meets explicit standards of reliability and quality. The KIP Windows driver has been tested and proven to deliver a superior experience when running a PC with Microsoft Windows operating systems.

AutoCAD® Driver

KIP AutoCAD driver enables printing directly from AutoCAD applications. To assist in making printing decisions, two-way printer status allows users to view media information and system status. The KIP AutoCAD driver is compatible with AutoCAD software versions 2004 and up.

DWF File Processing

The DWF® file format from Autodesk may be quickly printed by the KIP 7000. DWF files contain dynamic information to ensure the highest levels of productivity and print quality to the complete cycle of design and construction documentation.

Postscript & PDF File Processing

The KIP 7000 provides operators with the option to quickly and effectively interpret complex PostScript® and PDF® files into wide format prints.
Integrated Workflow Solutions

KIP has developed vendor associations in the wide format printing industry with innovative, forward thinking providers of software solutions. Optimized to support the KIP 7000, these integrated workflow solutions cover all areas of wide format document production and workflow management.

KIP 7000 SERIES SYSTEM OPERATIONS

Easy Administration

The KIP 7000 operator panel provides users with all local system functions via the touch screen graphical user interface (GUI). In addition to the thoughtfully designed interface, users and administrators benefit from an array of sophisticated but easy-to-use job queue management and accounting tools all designed to meet today's most challenging network security demands.

KIP IPS

The KIP Image Processing System is a combination of processing power and flexible software applications designed for maximum productivity and ease-of-use. Applications are available on PC workstations, over the internet and at the KIP 7000 touch screen operator panel, providing a uniform user interface across the entire KIP digital product range. All applications have been designed to provide exceptional versatility, fast file processing and efficient use of network resources to maintain high productivity.

Automated Metering System

All KIP printing, copying, and scanning applications are connected via an integrated system designed to record and account the use of all system functions. Customizable reports detailing total system usage are delivered via E-mail on demand or at designated intervals.

Easy Administration

In addition to the thoughtfully designed interface, users and administrators benefit from an array of sophisticated, easy-to-use queue management and accounting tools designed to meet today's most challenging network security demands.

Information Center

The KIP 7000 is configured to display contact information specific to the KIP authorized service provider. This feature is designed to assist operators when requesting consumables, service calls and system upgrades.

System Guides

The KIP 7000 operator panel displays illustrated guides to explain system operations including mono/color copy and scan-to-file functions. In addition, step-by-step media and toner replacement procedures are automatically displayed when necessary to provide users with system instructions.

The KIP System Guide is available at the KIP 7000 operator panel and downloadable via KIP PrintNET to assist operators by providing a quick reference resource for all KIP application features.

System Upgrades

Each configuration may be easily field upgraded to provide new system features at any time, including mono/color scan-to-file and copy.

KIP 7000 Stacking Solutions

The KIP 7000 is compatible with a range of stacking solutions designed to deliver print output just the way you want it. Consistent, accurate and reliable KIP stackers deliver maximum document control with minimum effort. From simple print catchers to intelligent online stacking systems, KIP solutions can be easily tailored to suit your exact needs, while maintaining the flexibility to grow as demands increase.

KIPFold 7000

The KIPFold 7000 system automates document finishing requirements by providing folding, stacking and collation in a compact design. The system intelligently communicates with the KIP 7000 IPS and is fully integrated with all KIP copying and printing applications and drivers to provide seamless workflow integration.
